

# Circular polarized long distance Wi-Fi antenna

## HELI - 3

M2M

WIFI

Frequency:	2400 -2500 MHz
Max Gain:	17.5dBi - Omni Directional
Polarisation:	Right hand circular
Size (LxWxD):	1050mm x 150mm x 120mm

When & Where to use?

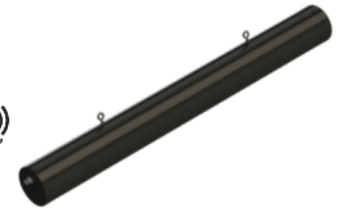

- For tunnels, mines etc.
- Cover long distances over narrow spaced corridors
- Unidirectional
- 2.4 – 2.5 GHz Wi-Fi data exchange for M2M, Wi-Fi underground / in tunnel communication

## HELI - 3IS

M2M

IS

WIFI

Frequency:	2400 -2500 MHz
Max Gain:	17.5dBi - Omni Directional
Polarisation:	Right hand circular
Size (LxWxD):	1050mm x 150mm x 120mm

Efficient Wi-Fi communication

HELI-3 comes with:

- N-Type connector

Intrinsic safe version available for installation in hazardous areas (oil & gas, mining, tunnels, ...)
